Dear FCC

Re: MB Docket No. 04-233

I am writing to request that you deny the expansion of the LPFM stations that would allow them to take priority over the current FM stations. There is current programming on the FM stations that serve our community in ways that no other can. They are established and have provided services that would be truly missed, especially my K-Love station. The family oriented and Christian based program on this station strengthens moral values, encourages people who are struggling and advertises for ministries that assist people that truly have needs that the government cannot meet.

When you have a morally strong family and community, that passes on to strengthen the country. K-LOVE plants the seeds and encourages the growth for such Godly moral standards. Please help us preserve this service.

Sincerely,  
Pamela Graves  
Newcastle, OK
